

## ALTURA FRAME

The **ALTURA FRAME** from Watts Commercial Furniture is a sleek sit to stand frame, featuring electronic height adjustment with three programmable height levels. The Altura frame incorporates European made electronics with an Australian design

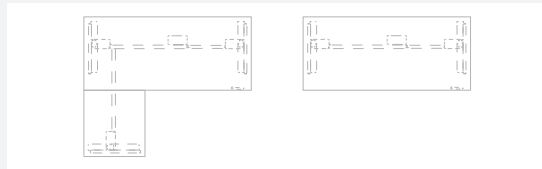

#### Power down

The Altura frame draws only 0.1w per hour in standby mode, saving you electricity and saving the environment.

#### Connected

The Altura frame has optional bluetooth connectivity with iOS and Android devices to control height adjustment and activate pre-set height configurations.

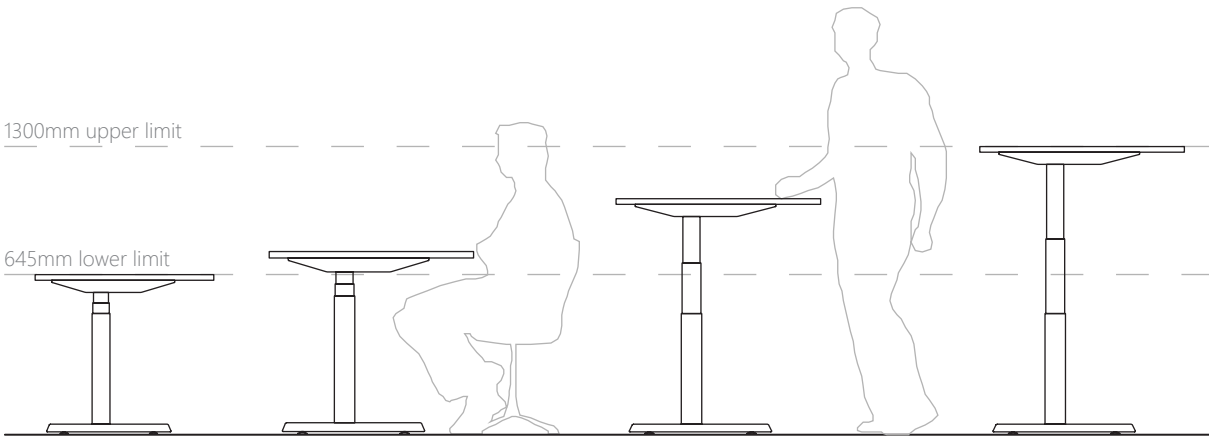

#### Get the fit for you

The Altura frame is available in straight desk and corner desk configurations. Each leg has adjustable horizontal positioning, to enable the frame for use as a workstation or as a meeting table. The Altura frame is available in three standard powdercoat colours: white, black and silver.

1300mm upper limit

645mm lower limit
