

SYSTEM 50

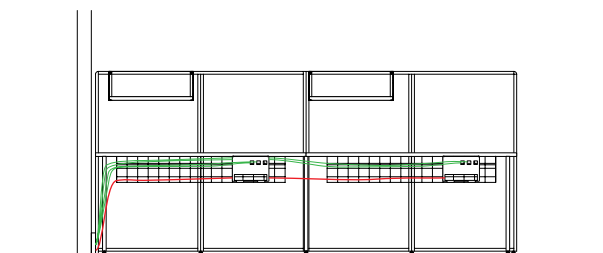

Power through Power blade, pole or umbilical to ceiling

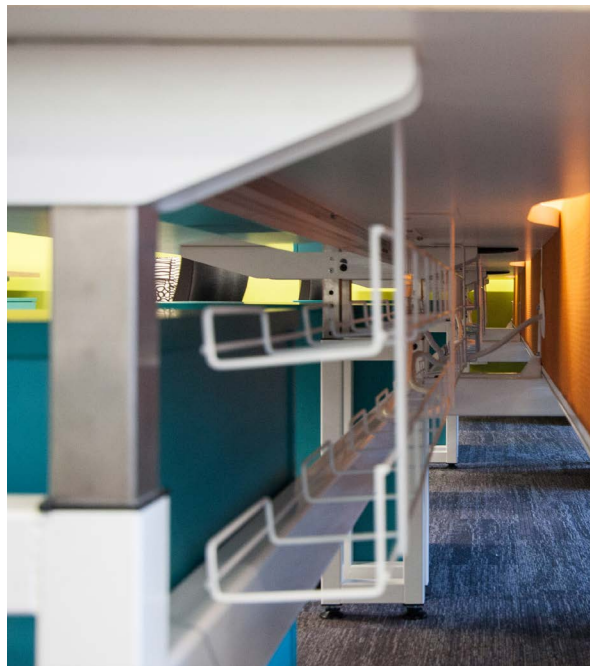

Power from wall mounted starter sockets to cable trays

Power from duct mounted starter sockets to cable trays

Power up

The System 50 screen (in conjunction with any of our desking options) has a multitude of optional variations for access to power and data. Termination points can easily be accessed from the ceiling, the floor or from the walls and skirting. Specialised power and data fixtures can also be incorporated to suit your requirements, Watts will power your work.

SYSTEM 50 by WATTS COMMERCIAL FURNITURE

All furniture supplied by Watts Commercial Furniture comes with a limited 10 year warranty. A warranty period of 7 years applies to all seating and 5 years for all metal storage items.

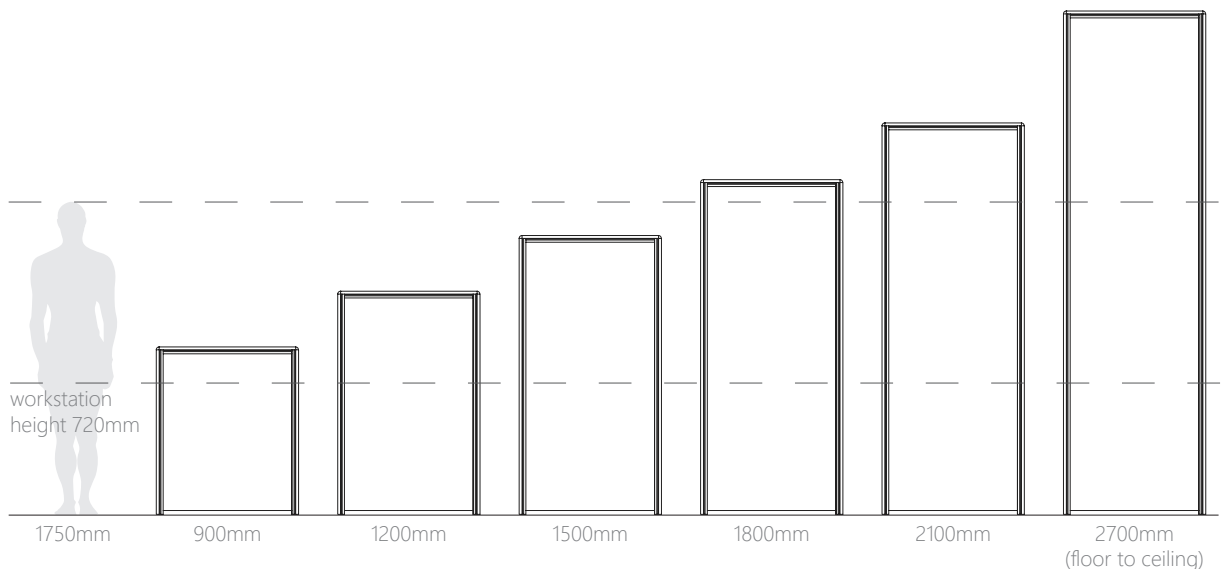

The WCF **SYSTEM 50** partition has all the versatility of its bigger brother, the System 75, whilst providing a slimmer aesthetic. The System 50 screen can be used in a vast array of areas and situations, from workstations to enclosed walls or offices.

Heights and Sizes

The System 75 partition screens can be utilised in many ways, from workstation partitions to entire office walls. The modular design means that screens of any size and length can be created and customised to accommodate your needs.
